

# PHOENIX PAYROLL WEB

distributed by BISMAC

## PHOENIX PAYROLL WEB

*Provides a user-friendly web-based self-service interface for viewing/requesting Schedules, Time & Attendance, Payslips, Loan & Deductions and Reimbursement. Phoenix provides a full-featured content management back-end with a highly configurable request and approval rules for up to three levels of approvers.*

## PHOENIX PAYROLL WEB

### FEATURES:

- Phoenix is accessible by all employees via standalone web server or a long side a corporate intranet.
- Makes the workforce more productive by proving an electronic medium where employees can verify their schedules, attendance logs, and view their payslips online without having to leave their workstations.
- Employee Requests are facilitated online without need to fall in line at HR Department.
- Facilitates supervisory and management verification and validation of employee request. Phoenix offers a 3-level verification and approval process to ensure that employee requests are valid prior to approval.
- Phoenix can email notification requests to supervisors or managers in accordance with notification and approval rules. Recipients may then quickly approved by simple click of an approval link.
